ACCOMMODATIONS

The Main Inn stands above a broad green lawn that slopes down to the ocean's edge. Built in 1892, the Inn offers incomparable views of the sea from its sunny terrace and nine elegantly-appointed guest rooms and suites.

Maine Lodges, outfitted in contemporary or traditional cottage style décor blend spacious comfort and electronic amenities with ocean or woodland views. Each lodge features a gas-burning wood stove, oversized marble-appointed bathrooms with walk-in shower or Jacuzzi tub and a private porch; the perfect place to relax and watch the sun set over the Harbor after the day's adventures.

Maine Cottages at Spruce Point were built as private summer residences. Still cherished by returning families who have made this coastal Maine experience a tradition for generations, the cottages received new amenities recently. Each features painted and unpainted Maine pine walls, antique furnishings and a rolled-stone fireplace and some feature an eat-in kitchen and two or three bedrooms.

OCEANSIDE MEMORIES

Spruce Point Inn Resort & Spa recaptures an era when summer vacation meant an unfettered span of time, sun, family and friends gathering in a special spot on the coast of Maine. Located just minutes from Boothbay Harbor, the resort covers 57 acres of secluded woodland peninsula stretching into the Atlantic. The foghorn from Burnt Island sounds in the morning mist and ocean breezes drift through the fragrant stands of spruce. Within view, lobster boats, windjammers and private yachts ply the cool Atlantic waters while guests relax by the saltwater and heated freshwater pools, play tennis, enjoy a signature treatment in our Spa or stroll our nature trails.
